British Embassy burned and sacked in Peking

LONDON UPI — Thousands of jeering Red Guards bloodied but failed to bow Britain's top envoy in Peking as they sacked and burned the British Embassy compound that withstood an 88-day siege in the ferocious Boxer Rebellion 67 years ago, reports reaching London and Tokyo said today.

Charge Donald Hopson, a mustachioed ex-commando, wore a bandage on his forehead and a blood-spattered coat when he led his staff from the flaming chancery building through a gauntlet of pummeling Chinese youths, according to Japanese newsmen in Peking.

The foreign office said none were se-

riously hurt and reported all 25 diplomats were safe, along with 29 family members in neighboring embassies.

Diplomatic radio communications between Britain and Communist China remained severed in the wake of what the foreign office branded "outrageous and uncivilized" acts "no doubt deliberately instigated by the Chinese government."

Diplomatic sources said London had no plans to cut relations with Peking despite the seriousness of the Tuesday night incident, worst since Britain became one of the first Western powers to recognize Mao Tse-tung's regime 18 years ago.

The unprecedented rampage that left the 30-room chancery building a smoldering shell apparently was triggered by British rejection of Peking's demands for the release of jailed Communist journalists in Hong Kong and the reopening of three government-closed Communist newspapers in the crown colony.

Foreign Minister George Brown was cutting short a work-play visit in Norway and returning to his London desk. Britain eluded stiff travel limitation on Chinese diplomats and citizens.

The British also forbade the Chinese legation in London any radio contact with Peking until British Communications with the Communist capital resumed.

Reports of the violence reached London from friendly embassies still maintaining radio communications with their home offices. They said Hopson, 51, was the most seriously hurt of 10 staff members manhandled.

Three rescued in South China Sea

HONG KONG UPI — A U.S. built C123 transport believed carrying nine men crashed in the South China Sea today and first reports said at least three persons were rescued, British authorities said.

Two survivors of the crash 150 miles southeast of this British crown colony were identified as Chinese from Taiwan.

The two, picked up by an American seaplane, were hospitalized and one was in serious condition. The third known survivor, reportedly rescued by a ship, also was injured.

Sources at Hong Kong's Kaitak Airport said the twin-engine plane was on a cargo run from South Vietnam to an unknown destination.

Kremlin leaders assail U.S. aggression in Viet

MOSCOW UPI—Official Soviet government quarters said today Russia will match every American escalation of the war in Vietnam with a countermeasure of its own.

The statement carried by the official news agency Tass said United States aggression against Vietnam is assuming an "every more extensive and sinister nature."

"Every new step to escalate the war in Vietnam inevitably leads to the necessary reply steps," the statement said.

It warned that "the danger of this short-sighted course by Washington lies in the fact that it further aggravates the international situation and may bring the world to a dangerous point."

The statement protested U.S. bombing of the Hanoi area and said four "bandit raids" have hit densely populated residential areas of the North Vietnamese capital.

The official statement said planes and warships have stepped up the bombing and shelling of populated localities in other parts of North Vietnam and said "the American imperialists are expanding the armed intervention in the south of Vietnam as well."

It called the South Vietnam presidential elections a "farce" and said "intensification of the war against the Vietnamese people and the political tricks to which the ruling quarters of the United States are resorting to in Vietnam only show that they do not wish to look at the facts soberly."

It said this road of "ventures, fury and rashness" will not bring the United

States closer to its plans of conquest but "the danger of this short-sighted course of Washington lies in the fact that it further aggravates the international situation and may bring the world to a dangerous point."

The statement said the Soviet people angrily condemn the U.S. aggression and that "the Soviet official quarters are drawing corresponding conclusions from the new criminal actions of the American imperialists."

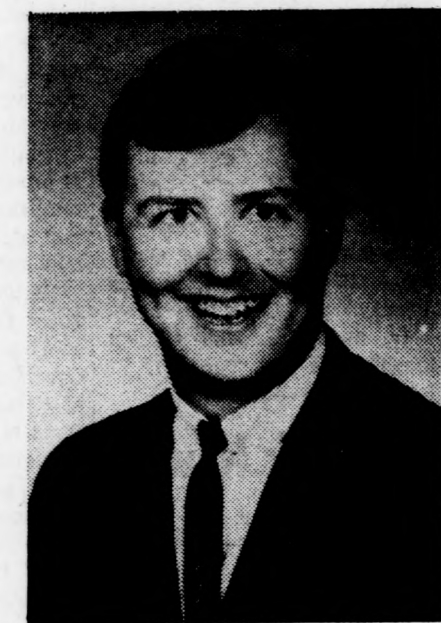

Tass is often used by the Soviet government for official statements, which are one step below official diplomatic notes. In this case "Soviet official quarters" means the Kremlin leaders.

Mrs. McFarland entered in State Fair contest

Mrs. Eugene McFarland, Bainbridge, has been nominated by Brick Chapel Homemakers Extension Club as a participant in the fourth annual Homemakers of the Year Contest at the Indiana State Fair.

In an effort to call the achievements of outstanding Hoosier homemakers to the attention of the public, the State Fair Women's Department sponsors the contest.

Women's organizations throughout Indiana have nominated 73 women who have made a particularly outstanding

Awarded scholarship

Kim McCarson, a 1967 graduate of Greencastle High School, has been awarded a scholarship and an Educational Opportunity Grant to Transylvania College, Lexington, Kentucky. These four year awards are presented to promising students who show special interests in academic and in extra-curricular activities of the college. Kim, the son of Mrs. Eldena McCarson, 11 Bloomington Street, will be entering Transylvania in September, and will be majoring in International Business Administration.

"War tax" urged by George Meany

WASHINGTON UPI—AFL-CIO President George Meany today called for a "war tax" that would be bigger for corporations than for individuals and would yield twice the amount sought by President Johnson.

Meany appeared before the House Ways & Means Committee to declare organized labor's support for Johnson's proposed 10 per cent tax increase, but he asked that the rate be doubled for corporations to yield \$13.4 billion, rather than the \$7.4 billion the administration figured.

In testimony prepared for the committee, Meany found himself lined up with some big businessmen supporting higher taxes, although they parted on Meany's call for a double tax rate for corporations.

The labor leader also suggested closing tax loopholes and a graduated surcharge rate on personal incomes.

"It is our view that the American public generally—not just the armed forces—should share the sacrifice involved in the war in Vietnam," Meany said.

Among others supporting higher taxes was the Life Insurance Association, made up of 349 life insurance companies.

contribution to their homes and communities.

The top ten nominees will be announced the week prior to the Fair. They are annually selected by a panel of judges competent in the field of home economics and community service.

The ten will come to Indianapolis on Sunday, August 27, and will be overnight guests of the Fair Board. The final judging, a personal interview, will be held at this time.

Homemaker of the Year will be named the next morning in a special Ladies Day program in the Women's Building. The winner will be presented a gold bowl by the State Fair and may also choose either a weekend at an Indiana State Park or a \$100 cash award sponsored by the Coca-Cola Company of Indianapolis.

Women will be admitted free to the Fairgrounds until noon on Ladies Day, August 28. The dates of the 1967 Fair are August 25 through September 4.

6,000 flee flames in Texarkana, Texas

TEXARKANA, Tex. UPI — Exploding chemicals and fierce flames from railroad tank cars derailed inside the city limits forced nearly 6,000 persons in the area to flee their homes today.

At least nine cars of a Texas and Pacific freight train left the tracks when a fire and explosion erupted in one of the cars Tuesday night.

A car carrying granulated plastic burned through the night, creating heat so intense firemen could not get close to the flames.

No one was injured from the blaze.

FHA approves \$925,000 loan for Little Raccoon Watershed

Approval of a \$925,000 Watershed loan for the Little Raccoon Conservancy District, Parke-Montgomery Counties, Indiana, to help finance construction for flood prevention, recreation purposes, and channel work on Little Raccoon Creek was announced by County Supervisor William F. Spence of the Farmers Home Administration office in Greencastle.

The funds will be used to help finance the local portion of costs on the 15 single and 2 multiple purpose structures,

forming permanent pools totaling 897 acres of water. These structures are planned to temporarily detain 13,985 acre feet of flood water which is the equivalent of 2.89 inches of runoff from 56,000 acres of the drainage area.

On approximately 10,000 acres of bottom land the average annual flood water damage of \$115,000 estimated by the Soil Conservation Service will be greatly reduced.

The Federal Government, through USDA's Soil Conservation Service, will

furnish cost-sharing funds amounting to approximately \$2,334,000. These funds need not be repaid.

Total average annual benefits of the works of improvement estimated by Soil Conservation Service total \$241,000.

Some 197,000 people live within 15 miles of the watershed boundary. The population shown by the 1960 census is 746,000 within a 50-mile radius. To serve this population, the Indiana Department of Natural Resources has provided additional grant assistance in the amount of \$300,000 for the development of recreational areas and facilities at the 2 multi-purpose structures. The lakes and parks behind these 2 structures are estimated to handle 80,000 visitors annually.

Farmers in the watershed plan to carry out extensive land treatment measures in cooperation with their Soil and Water Conservation Districts. Funds for cost sharing on such practices are available through USDA's Agricultural Stabilization and Conservation Service in each of Parke, Montgomery and Putnam Counties. For the 1967 fiscal year, this amounted to approximately \$32,000. Such funds are expected to be available annually for the proposed 7-year construction period.

The Little Raccoon Conservancy District Board of Directors consist of Joe Feunquay, Florida Township, Chairman; Earl Perry, Raccoon Township; Frank Welch, Washington Township; Forrest Coleman, Waveland; and Kenneth Hall, Rockville. Legal counsel is provided by John B. McFaddin of Rockville, with John Gregor of Indianapolis serving as legal consultant.

Farmers Home Administration is to be repaid over a period of 50 years with a 3.253 percent interest rate.

Watershed loans are available to such local organizations as Conservancy Districts, Soil and Water Conservation Districts, Irrigation Districts, Drainage Districts, Municipal Corporations and similar public and quasi-public bodies.

Amish leaders agree to upgrade parochial schools

INDIANAPOLIS UPI — Richard D. Wells, state superintendent of public instruction, said Tuesday that he had consummated a pact with Amish leaders which will give them religious freedom in operating their parochial schools.

Members of the executive committee of the Amish schools, who met with Wells, agreed to institute reforms to upgrade their schools, he said.

"This agreement should end the persecution of the Amish which has come from a number of public officials and others over the state," Wells said.

Vice President will speak here Sept. 1

Vice President Hubert H. Humphrey and a number of nationally known religious leaders will headline the 26th annual Indiana Methodist ministers' refresher training program Aug. 28-Sept. 1 at DePauw University.

Humphrey will pay tribute in his speech Sept. 1 to Bishop Richard C. Raines, head of the Indiana area since 1948. The bishop retires next year.

Bishop Raines was a close friend of Humphrey when the bishop was minister of a church in Minneapolis while Humphrey was mayor of that city.

Four addresses will be given during the conference by the Rev. E. Stanley Jones, an author and former missionary-evangelist to India and other Asian countries.

A debate on U.S. involvement in Vietnam will pit the Rev. A. Dudley Ward, general secretary of the Methodist Board of Christian Social Concerns, against Frank R. Barnett, president of the National Strategy Information Center. Ward will oppose current American policy and Barnett will defend it.

Daily workshops will include as leaders the Rev. Fr. Polycarp Sherwood, professor of early church history at St. Meinrad School of Theology, a Roman Catholic institution.

Damage reported at Bloomington

BLOOMINGTON, UPI — Fire damaged a building Tuesday being constructed for use by junior high students displaced when their school building was destroyed by fire last spring.

Firemen quickly doused the blaze at the temporary Central Junior High School building in the downtown area. The old junior high was destroyed last April in a \$2 million fire.

Young Drifters held as suspects in slayings

SONORA, Calif. UPI — A plucky teen-aged girl who despite five bullet wounds managed to crawl up an embankment to get help, directed police to a pair of young drifters from Washington suspected of three senseless slayings.

Susan Bartolomei, 17, Ukiah, Calif., underwent lengthy surgery twice during the night and still was in critical condition today from wounds in the head, neck and chest. Doctors said a preliminary examination indicated she had been raped.

The attractive teen-ager was shot and left for dead early Tuesday, 200 miles from where her boy friend, David L. Luce, 17, was slain near Ukiah.

When found hours later, Miss Bartolomei gasped the description of a late-

Six classrooms readied for occupancy Sept. 8

A summer of excavating has produced new quarters for DePauw University's department of sociology and anthropology.

When classes begin September 8 students and faculty will occupy six new rooms hewed from beneath the south side of Asbury Hall which was basementless when built in 1930.

According to Arthur Perry, superintendent of buildings and grounds, the series of rooms on the building's south side will include two seminar areas, two offices, an anthropological museum, and a museum workshop.

The total area created by the excavation will be 1,400 square feet, about the size of an average home. The area, Perry said, will be air conditioned. Cost of the total project will be approximately \$22,000.

A similar project that created offices under the north and east sides of the building was completed in the early 1950's. The department of education, housed in Speech Hall until recently, now occupies most of that area which includes classrooms.

Perry said two more projects currently underway on the campus are progressing satisfactorily.

Air conditioning installed in the Roy O. West library is expected to receive a test run in approximately three weeks or shortly after school begins. The sec-

ond project, construction of a new million dollar plus women's dormitory, has reached the second floor of the three-story contemporary building. The structure is scheduled to be ready for occupancy in September, 1968.

Two entrants in Fair style shows

Putnam County, now officially entered in the Indiana State Fair's Young and Adult Homemakers Style Shows, may have the top two gals in the state when it comes to "buttons & bows."

Mrs. Norman Evans of Monroe Twp., will model in the Adult Group on Sunday, August 27, and Mrs. Jack Torr of Madison Twp., will represent the Young Homemakers on Sunday, Sept. 3. Both shows will be held in the Women's Building at 2:00 p.m.

Mrs. Evans will be wearing a navy linen sheath dress with navy and white accessories.

Mrs. Torr's outfit consists of an aqua wool 2-piece dressmaker suit. Her accessories are brown and beige.

Models will be judged on personal appearance, becomingness and wearability of the costume, workmanship and materials and selection and style of accessories.

of killing Luce, the son of a district attorney.

His body was found in a pool of blood in a vineyard near highway 101 Monday evening by a young man looking for arrowheads. He had been shot once in the head with a .22 caliber pistol, according to police.

Miss Bartolomei, a pert and popular blonde, had been with Luce and her disappearance triggered a state-wide search.

She was found on the side of highway 120 near Groveland early Tuesday by rancher Gerald Engler. She had been shot repeatedly, pushed over a 75-foot embankment into a ditch and left for dead.

U.S. bombers hit within 30 miles of Red China

SAIGON UPI — American fighter bombers struck within 30 miles of Communist China and for the third straight day smashed rail and bridge targets near Hanoi, U.S. spokesmen said today.

The spokesmen reported no planes lost in the 162 bombing missions against North Vietnam Tuesday.

From Hanoi, a Soviet news agency Tass report said American bombers returned today for the fourth day in a row of striking targets in the vicinity of the North Vietnamese capital.

ENLISTS IN ARMY

David J. Lee, 18 year old son of Mr. and Mrs. Clarence I. Lee, R.R. 4, Greencastle, enlisted 7 August in the United States Army for a period of three years according to SSG. James W. Payne, the local Army Recruiter.

David chose to enlist for the Automotive Repair field, one of over fifty career groups from which a young man may choose, under the army's unique "Choose-It-Yourself" vocational training programs.

David will receive his initial military processing at Fort Knox, Kentucky. After completion of basic training he will receive specialized training in the field of Automotive Repair, either in a service school or on the job. The Automotive Maintenance field includes the servicing, recovery, and repair of land and amphibious wheel and track vehicles of all kinds, ranging from staff cars and light trucks to the tracked tanks and self-propelled weapons.

David graduated from Greencastle High School in 1967.

State weather to be warmer

By United Press International
Warmer weather was on the way to Indiana today, providing Nature may have her mixed up season straightened out again.

The five-day outlook called for a slow warming trend beginning Thursday and continuing into early next week, and in contrast to recent sub-normal prospects the outlook was for temperature averages near normal highs of 81 to 88 and normal lows of 59 to 65.

Highs today ranged from 75 at the upstate points to 81 at Evansville and Indianapolis. Overnight lows ranged from 53 at Fort Wayne and 54 at South Bend to 62 at Evansville.

Highs today will range from the upper 70s north to the low 80s south. Lows tonight will range from the mid 50s north to 57 to 61 south, and highs Thursday will range from the low to upper 80s.

The outlook for Friday was warmer.

The five-day prospect was for a little cooler early next week. Precipitation possibilities were fair to good. Although the probability percentages ranged no higher than 5 to 20 per cent through Thursday and only a "chance" of showers was seen for Friday, the five-day outlook said precipitation will total around an inch in showers "mainly the latter part of the week."

Would take up LBJ challenge

WASHINGTON UPI —Sen. Wayne L. Morse, in a move to take up President Johnson's public challenge to his critics, is planning an attempt to get the Senate to repeal the controversial 1964 Gulf of Tonkin resolution.

But not even the most optimistic of the Oregon Democrats fellow "doves" expected his attempt to make much headway, despite the current furor over expanding bombing of North Vietnam.

Morse told the Senate of his plan Tuesday, declaring the Tonkin Gulf resolution "patently unconstitutional."

His effort was in response to Johnson's news conference of last Friday during which the President challenged Congress to revoke the resolution if it thought he had misused his authority to expand the war in Southeast Asia.

At the same time, and subsequently, Johnson and other administration officials hedged their bets somewhat when they said the President, as commander-in-chief, really did not need the resolution to do what he was doing.

Passed overwhelmingly by the House and Senate Aug. 7, 1964, only days after North Vietnamese torpedo boats had attacked U.S. destroyers in the gulf, the resolution authorized the President to take all steps necessary to repel attack and safeguard U.S. interests.

The resolution stipulates it can be withdrawn at the order of the President or by a subsequent resolution passed by simple majorities in both the House and Senate.

But, asserted Morse, "no president has the power to make war in the absence of a declaration of war. I dare the President to ask for a declaration of war. But he won't take that dare because the world would turn against the United States."

Hints from Heloise by HELOISE CRUSE

Dear Folks:

Now don't laugh! I want to talk to all of you tired housewives who iron pillowcases.

I agree with you . . . they should be ironed. I even like them lightly starched. But some days we just don't have the time.

And guess what? I found a new easy way and I think I should pass it along to you. If it doesn't get you off to a running start, I'll sure be surprised.

I have box springs and mattresses like most of us do these days. So when I take my pillowcases out of the drier and I never let them OVER dry—I immediately fold them and carry them into the bedroom. I left up a corner of the mattress and flop the folded pillowcases between the box springs and mattress!

I just let them stay there until the following week. I have found this to be the most energy-free pressing job you can find! Puts a lovely crease in them, too.

I am now using this method to press my sheets, too. Imagine it?

After all, we strip a bed and do the laundry each week. It's far easier than ironing, for us to lift up a corner of the mattress. We've got to anyway.

Just put a foot on the box spring and hold that mattress up with your knee. Put that folded sheet and those pillowcases which belong to that very bed under it. Then forget about them until the next changing time.

This is the greatest. Not only do you save time by not ironing them, but they are right there when you are ready to change that bed. Saves walking to the linen closet each week and according to how many beds you have, lots of linen closet space . . .

You might try it, gals, I know you'll love it. That's the way I keep mine now.

Heloise
Dear Heloise:

Here's what I did with one of my old formals:
I made a fancy dust ruffle for our baby's crib.

The full skirt of the dress made the actual ruffle. An inexpensive piece of cotton, which I purchased in the same shade, is perfect under the mattress where it doesn't show.

The dust ruffle is both decorative and useful since its provides hidden, extra storage space beneath the crib.

"Faithful Reader"

Dear Heloise:

Here's a tip if you have leftover dips from a party.
With the onion or garlic dip, I added just a little milk and mayonnaise to make it thin enough to pour over a tossed salad.

It makes a very tasty dressing that is a little different. Try it when you have leftover dips. You'll like it, too.

Mrs. Paul D'Anna

Dear Heloise:

When using a few curlers to pep up a hair-do, or between shampoos of the whole head . . . Instead of wetting the hair, simply wet each roller. Give it two or three shakes to remove the excess water, then roll as usual.

The dry hair will immediately stick to the roller and will roll perfectly and dry sooner for a nice touch-up hair-do.

Try and Stop Me

By BENNETT CERF

A CONSCIENTIOUS minister decided to get acquainted with a new family in his congregation, and called on them one spring evening. After his knock on the door, a fitting voice from within called out, "Is that you, Angel?" "No," replied the minister, "but I'm from the same department."

A group of teachers at Westchester County school endeavored to discover how much books mattered to their students. The kids were asked to write essays on "A Book Is..." And here are a few of the answers they turned in: a tenth-grade girl wrote, "A book is two-faced. It can make you laugh or it can make you cry. Nothing in this world that is so small can do so much." An eighth-grader chimed in with "Books can be written by people who are so rich they were millionaires when they were seven or by people who are so poor they were made in Japan." A fourth-grader opined, "A book is a lot of paper with words on it. This morning I put two books in the washing machine and shot five holes in 'The Wizard of Oz' with my pellet rifle." And a seventh-grade girl stated that a book "is pretty dull, unless it's fiction. Who cares what happens to real life people? I have my own troubles!"

A two-begone lady clad in a suit jacket and sheer slip pushed ahead of the line at a department store's lost and found window and inquired anxiously, "Has anybody turned in a black skirt with four children from two to five hanging on to it?"

Heloise

Dear Heloise:
When my liquid make-up gets low in the bottle, I pour in a small amount of hand lotion and shake real good.
It works well and stretches my make-up. This way a bottle will last me a little longer.

Being an Army wife I must "think moveable."
I keep my in-season shoes in a plastic holder with a heavy clothes hanger at the top. (The hanger makes moving easier.)
My out-of-season shoes are stored in shoe boxes stacked at one end of the closet.

State hospital head resigns

LOGANSPORT, UPI — Dr. Ernst J. Fogel has announced his resignation as superintendent of Logansport State Hospital, a position he has held since 1958.

Fogel told Dr. William Sheely, Indiana mental health commissioner, in a letter of resignation effective Sept. 30 that he had accepted a \$25,000-a-year position as chief of staff at a U.S. Veterans Administration hospital at Murfreesboro, Tenn., specializing in psychiatric treatment.

Fogel said he also will teach psychiatry at a nearby medical school.

During Fogel's administration at Logansport, patient population at the mental institution has dropped from more than 2,600 to less than 2,000 despite an increased admission rate. He was responsible for a variety of new programs.

Myers opposes foreign aid bill

WASHINGTON UPI — The Senate has passed the largest single money bill in the nation's history with relatively little talk about cash but a great deal of debate over policy.

Sent to a House-Senate conference today was a \$70.1 billion appropriations bill to maintain the nation's far flung armed forces during the fiscal year that started July 1. The House approved a similar bill, calling for \$70.3 billion, earlier this year.

The measure was passed Tuesday on an 85-3 vote with only Senators Ernest Gruening, D-Alaska, Wayne L. Morse, D-Ore., and Stephen M. Young, D-Ohio, all persistent critics of President Johnson's Vietnam

policy, against it. Although last year's Congress appropriated \$100 million more for defense than was called for in this bill, it was done through a number of separate measures, including a supplementary appropriation.

Despite its gargantuan size, the bill was still \$1.5 billion less than the President had requested.

About \$20 billion of the outlay would finance activities directly related to the Vietnam war.

Just before the final vote, the Senate turned back, 83 to 6, a move by Sen. Joseph S. Clark, D-Pa., to send the bill back to the Appropriations Committee with instructions to cut it by \$3.5 billion, or about 5 per cent.

WHEN THE HEAT'S ON, TRY A NO COOK SUPPER

Breathes there the homemaker who has never once secretly uttered, "I wish I didn't have to cook tonight?" Probably not; and fortunately, the age of convenience foods turns the wish into a reality.

So, on those days when the temperature is up, plan a dinner menu around flavorful cold dishes.

Lead off with a first course of chilled condensed soup blended with ice water, and served in mugs to family or guests on the patio. Tomato, cream of chicken, cream of asparagus, and green pea soups are good choices. While they sip, put the finishing touches on a crisp delightful Cabbage Slaw Hawaiian, a tasty combination of cabbage, pineapple, and cooked shrimp (use the canned variety for extra convenience). Dress the salad with a flavorful mixture of canned condensed cream of celery soup, lime juice, and curry powder. Served along with a selection of cheeses and party rye slices, its perfect hot weather fare, indoors or out.

Round out the menu with squares of store bought cake topped with ice cream and chocolate sauce.

Cabbage Slaw Hawaiian

- | | |
|---|----------------------------|
| 1 can (10½ ounces) condensed cream of celery soup | 1 cup cooked cut-up shrimp |
| ¾ cup mayonnaise | ½ cup pineapple chunks |
| 1 teaspoon lime juice | Salad greens |
| 1 teaspoon curry powder | Tomato wedges |
| 3 cups shredded cabbage | Toasted slivered almonds |

In small bowl, blend soup, mayonnaise, lime juice, and curry powder; chill. Combine cabbage, shrimp, and pineapple; chill. Just before serving, lightly toss cabbage and soup mixture. Serve on salad greens; garnish with tomatoes and almonds. Makes 6 servings.

Mideast situation flares with exchange of shots

Jordanian and Israeli troops exchanged fire across the Jordan River for half an hour today in another of the periodic flareups that has marred the Mideast cease-fire but apparently it had no effect on the return of Jordanian Arabs into the Israeli-occupied west bank.

An Israeli communique issued in Tel Aviv said Jordanian troops opened fire on an Israeli patrol on the west bank and that Israeli forces returned the fire. No casualties were reported.

U. S. Embassy to be attacked

SAIGON UPI—American intelligence sources today revealed Viet Cong plans to shell the U.S. embassy and Independence Palace in Saigon as part of a nationwide effort to sabotage South Vietnam's Sept. 3 presidential election.

Intelligence reports indicate the Viet Cong have detailed plans for terrorism, assassinations, kidnappings and threats to disrupt the election. In some areas, they are reported to have established secret bases to train "counter-election" sabotage teams.

"They are also making plans to disrupt lines of communications, attack bridges and interdict national roads and military and administrative organizations," an intelligence report said.

It said, "In some hamlets the Viet Cong have forbidden the population to leave the area and have selected trusted cadres to do the entire marketing for the populace."

In the My Tho area in the Mekong Delta south of Saigon, the Viet Cong were reported setting up 10-day demolition courses for women. The women would enter polling areas with legal identification cards and plant the explosives.

The Vietnamese police said they have captured a Viet Cong document outlining plans to use napalm incendiary bombs the size of a package of king-size cigarettes to disrupt the election. Equipped with a chemical timing device, the bomb could be slipped into a ballot box.

The sources said Viet Cong sabotage squads have smuggled explosives into the Saigon area. Presumably one of their prime targets, as in the past, would be American servicemen's billets.

A week ago Saigon police announced the arrest of a Viet Cong agent who told of plans to shell the capital city before election day.

Arab plans for a summit conference to seek means of "liquidating the result of Israeli aggression" ran into a series of snags today. Various Arab states were reported bickering about what to talk about and Beirut reports said Syrian leaders themselves were divided.

Informed sources in Beirut said an emergency congress of Syria's ruling Baath party was called for Sunday and that the meeting could be behind Syria's reported request that next week's Khartoum summit meeting be postponed several weeks.

Another snag was the continuing war in Yemen which has Saudi Arabia supporting one side and Egypt the other.

The Beirut daily Al-Nahar said Saudi King Faisal has accepted a compromise plan set forth by Sudanese Premier Mohammed Magoud which calls for withdrawal of the 27,000 troops in Yemen under supervision by the Sudan, Tunisia and Algeria. Later there would be a plebiscite to determine who will rule the Yemenis — the Cairo-backed republicans or the Saudi-supported royalists.

BARE FACTS

MONTEWALCONE, Italy UPI—Scientists today said they have found the thighbone of a prehistoric Ursus Speleus bear in a nearby grotto which indicates arthritis may have rendered the species extinct 20,000 years ago.

They said the thighbone showed arthritic deformations which backed up an existing theory arthritis may have forced the meat-eating Ursus Speleus to give up hunting for an insufficient diet of herbs and plants.

PROTEST POLICY

COPENHAGEN UPI—About 500 demonstrators, most of them bearded and longhaired youngsters, protested against U. S. Vietnam policy Tuesday night outside the darkened American Embassy. The hour-long demonstration demanded a complete American troop withdrawal from the Southeast Asian nation. Fifty Danish police kept order and there were no arrests.

Forest fires cause destruction

By United Press International

National Guardsmen and fresh volunteers joined battle-weary veterans today in an effort to contain hundreds of lightning-spawned blazes that have devastated 85,000 acres of brush and timber in the Pacific Northwest.

One forestry official said the fight was being waged in an area made so dry by a record heat wave, "you could almost spit and cause a forest fire."

Temperatures hovering near the 100-degree mark for more than a week have eased, but Portland, Ore., recorded its 61st consecutive day without rain Tuesday—a record.

The most serious fires raged out of control in Idaho, Montana and British Columbia. Mopping-up operations were in progress in Oregon, Washington and California.

Fresh recruits, many of them workers idled by a strike in the copper industry, were rushed to the uncontrolled 5,500-acre Trapper Peak fire in northern Idaho, where the leader of firefighters reported his crews were working at "about 50 per cent effectiveness because of exhaustion."

Forestry officials in Missoula, Mont., said 200 firefighters were recruited in Butte and 150 in Spokane. Another 325 were en route from California.

However, they said the new men would be used to supplement the 4,400 smokeeaters presently on the lines in 16 northern region forests.

Women were put to work at fire headquarters Tuesday, packing parachutes for jumpers and rations for the men on the lines. An official said parachute crews have made 464 jumps in the past 10 days.

EASY PICKINGS

BERGAMO, Italy UPI—Three Italians were arrested Tuesday for allegedly picking 11,000 edelweiss flowers. The charge was damaging the natural beauty of the Wbergamo countryside. Police said the trio, a man and two women, planned to sell the flowers to tourists.

HIGH RIDING

PERPIGNAN, France UPI—Spanish surrealist painter Salvador Dali plans to cross the Pyrenees riding an elephant next month, just as Hannibal did 22 centuries ago, it was announced today.

Teenager faces drug charges

WINAMAC, UPI—A Spanish speaking Chicago teen-ager today faced narcotics charges after being arrested over the weekend as he and another man harvested marijuana growing wild along a ditch.

State police said Radames Compos, 19, Chicago, faced charges of possession of marijuana and first degree burglary. Officers said a man identified as Jose Pizzaro, 55, Chicago, was still sought.

State Trooper Rudy Schultz arrested Compos Saturday on the Arthur Gunz farm five miles south of North Judson but the man identified as Pizzaro jumped in the Monon Ditch, swam to the other side and escaped.

Police said they confiscated about 125 pounds of marijuana in three bags which the pair had harvested. Compos was held in the Pulaski County Jail here under \$50,000 bond.

The burglary charges stem from a break-in at a house near the scene of the harvest. Authorities said two sun lamps were stolen, apparently to be used in processing the marijuana.

A portable television set and six rabbits also were taken.

Police said they had to use an interpreter to question Compos, who does not speak English.

Winamac is more than 50 miles southeast of Chicago.

Hoosier traffic toll now 894

By United Press International

Three traffic deaths Tuesday, including one from an earlier accident, boosted Indiana's 1967 highway fatality toll to at least 894, compared with 981 a year ago.

Elden Brewer, 47, R.R. 1, Medora, was killed Tuesday in a car-truck collision on U.S. 50 west of Brownstown in Jackson County. State police said his truck was clipped from the rear by a car driven by Norman Taylor, 33, Peoria, Ill., as Taylor was thrown from his truck.

Donnie Hoskins, 19, Warsaw, was killed Tuesday when his car went out of control on Indiana 15 north of Wabash, hit

three concrete corner posts and overturned.

John Thomas Cole, Jr., 19, Muncie, died Tuesday in Ball Hospital at Muncie of injuries suffered Saturday in a two-car

accident on a Delaware County road west of Muncie. Cole was burned over 50 per cent of his body when the car in which he was riding caught fire.

Signs lease

INDIANAPOLIS UPI—The Indiana Republican State Central Committee signed a lease Tuesday to move its headquarters to a new location across the street from the State Capitol.

State chairman Charles O. Hendricks and State Secretary James T. Neal signed a lease with the Indiana State Teachers Association Corporation to move into the ISTA Service Center Building just north of

the ISTA Building on Capital Avenue.

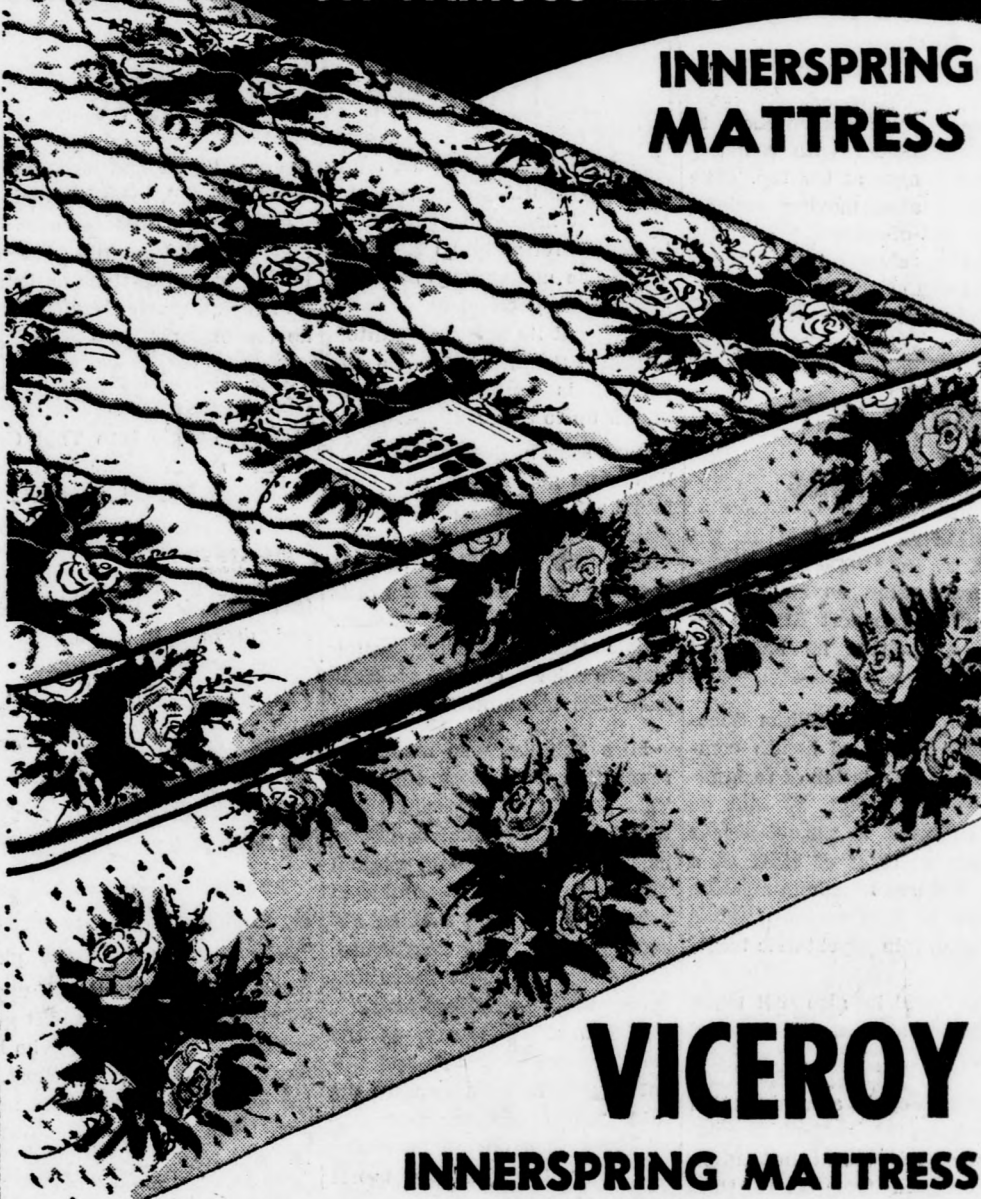

Hendricks said the move would be made immediately.

State GOP headquarters was in the Claypool Hotel nearly 18 years before the hotel closed temporarily this summer after a major fire. However, the party said its lease was up in the hotel and new quarters were being sought before the fire.

The Republicans will occupy two floors of the four-story building. Also in the building are offices of the ISTA and United Press International.

Michigan National Guard comes under fire

WASHINGTON UPI — The National Guard's performance during the Detroit riots has come under fire from an Army general, who characterized the guardsmen as "trigger happy, nervous soldiers."

Lt. Gen. John L. Throckmorton's comments before a House armed service subcommittee Tuesday touched off a new round of debate over the role of the Guard in the disorders that have wracked the nation's

cities this summer.

Michigan Gov. George W. Romney defended the guard's conduct in a letter to the subcommittee. "In my estimation," he said, "the Michigan National Guard performed with honor

and distinction during the recent civil disturbances in Detroit.

"They were handicapped by late commitment, lack of equipment, and a type of riot duty never before encountered. I re-

fer, of course, to the unprecedented sniping, looting and arson that was prevalent in this crisis."

But Throckmorton, who was sent by President Johnson to put down the riots, said he had

to order the guardsmen to unload their guns so they would not kill innocent bystanders.

"If I had to do it all over again I would do exactly the same thing," he told the subcommittee members, most of whom were angry at his description of the guardsmen.

Despite the order, Throckmorton said that guardsmen still fired wildly at street lights

and over passing cars. His deputy, Maj. Gen. Charles Stone, said 90 per cent of the guardsmen carried loaded weapons in violation of the order when he conducted an inspection three or four days later.

The subcommittee is investigating whether the guard is properly equipped and trained to cope with city riots. Under the chairmanship of Rep. F.

Edward Hebert, D-La., most members of the panel felt Throckmorton's orders left guardsmen unable to protect themselves against sniper fire. Throckmorton disagreed. He said the number of snipers was exaggerated and that when sniping occurred the thing to do was to take cover, locate the sniper "and then send in a squad to root him out."

Originator of birth control pill dies

BOSTON UPI — Dr. Gregory Goodwin Pincus, one of the three men who developed the birth control pill, died Tuesday of a blood disease. He was 64.

Working with Dr. M. C. Chang of the Worcester Foundation and Dr. John Rock of the Rock Reproductive Clinic at Brookline, Mass., Pincus developed the pill, which revolutionized contraception.

The pill first was put on the market in 1960 and at first received a cool reception by women. But it has been estimated that it is being used by six million women in the United States.

Dr. Pincus, who succumbed to myeloid metaplasia, was an expert on reproduction in mam-

mals and was a pioneer in cancer research.

He was a research professor of biology at Boston University until his death. He won the Lesker Award for planned parenthood in 1960. In 1965, he was elected to the National Academy of Arts and Sciences

and last year won the University of Edinburgh's Cameron Prize for outstanding contributions to endocrinology.

Survivors include his widow, Elizabeth; a son and daughter. The funeral was set for Friday at Temple Emanuel in Worcester, Mass.

Two hunters are killed

Two hunters were killed in accidental shootings Tuesday in Indiana, including one who was shot after he returned home. The deaths were the second and third to hunters since the squirrel season opened last week.

Dennis Adams, 14, R.R. 3, Liberty, was shot fatally in a bedroom of his Union County farm home after he and a companion returned from a hunting trip.

State police said the com-

panion, Richard Freeman, sat down on a .22-caliber rifle which had been placed on a bed, and the weapon discharged, striking the victim in the head. He was the son of Albert Adams.

Kendall Townsend, 25, Peru, was shot fatally while hunting in a wooded area on the Roger Baber farm east of Peru. Authorities said Townsend was struck in the head by a slug from a .22-caliber rifle.

Daly issues a final reminder

INDIANAPOLIS — James E. Daly, District Director of Internal Revenue, today issued a final reminder to persons interested in taking the forthcoming special enrollment examination. Applications to take this examination must be in the mail by August 31, 1967.

This special examination is given once each year throughout the country to those persons who wish to qualify to represent their clients before the Internal Revenue Service in tax matters. To qualify persons must successfully pass this technical examination and meet the ethical standards established by the Treasury Department. Lawyers and Certified Public Accountants do not have to take the examination.

Mr. Daly said that approximately 30 residents of Indiana have already been given the application forms and other pertinent information for this year's exam. The examination, which takes two days, will be given on September 25 and 26 in Indianapolis.

Instructions and application forms may be obtained by writing to the Direct Director, Indianapolis 46204 or by calling Area Code 317-633-7112. The application must be mailed no later than August 31, 1967, to the Director, Audit Division, International Revenue Service in Washington, D.C., Attention: CP-A:PO - SEE.

The bidding:
1♦ East South West
1♦ Pass 2♦ Pass
2NT Pass 3♦ Pass
3♦ Pass 4♦ Pass

Opening lead—six of hearts. It is not difficult to make four spades if you see all four hands, but to make the contract without this advantage requires a steady hand at the helm.

As happens so often, the bidding helps a lot. It is reasonable to assume that West has six hearts for his jump response to the takeout double and that East therefore has only three hearts. Maybe you wouldn't bet all the tea in China on this assumption, but the 6-3 division in hearts is far more likely on

the bidding than any other division you can name.

This assessment of the heart situation has a great deal to do with how you decide to play the hand. The one thing you surely want to avoid, if possible, is to stake the outcome on a diamond finesse.

Accordingly, you win the heart lead with the ace, ruff a heart, and play a low club to the king. East wins and, let's say, returns a heart which you ruff.

You now lead a spade to the queen, losing to the ace. Back comes a club which you win with the queen. After cashing the king of spades and J-10 of clubs, you throw East into the lead with a trump. He has only diamonds left, and, when he leads one, your worries are over.

Of course, East might not return a heart when he wins the ace. If he leads back a club instead, you lead and play a spade to the queen. East cannot prevent you from ruffing a club in dummy and a heart in your hand, and you can then accomplish the same endplay described above.

All of which goes to show that if you are willing to take the trouble to diagnose the heart distribution at the beginning of the hand, you are very well rewarded at the end.

Hollywood News

By Vernon Scott

HOLLYWOOD UPI — A hopping mad Rudy Vallee has blasted a show business union with charges of being "the most arrogant of all unions and yet the weakest and most pusillanimous of all."

The beef began when Actor's Equity Association fined Vallee \$1,000 for using blistering language during a rehearsal of a road company version of "How to Succeed in Business Without Really Trying."

The director complained to the guild which brought Vallee before a board of eight actors. "They were not my peers in any way," Vallee said, fuming. "The actors were nobodies and they found the opportunity to take it out on me."

Vallee appealed his fine to another board which rescinded it. Finally, at a quarterly meeting of 70 or 80 equity members, the appeal was upheld and the entertainer was put on a year's probation.

But Vallee, who is also a member of AFTRA, the Musicians' Union and the Screen Actors Guild, is still furious at equity.

"I was working for a director I consider the worst in the business," Vallee said. "He admitted to me it was his first theater-in-the-round assignment."

"But the point is, I never should have been brought up before the Actors Equity Board in the first place. Equity has made all directors gods. They are scared to death of them. The union is obsolete and antiquated—based on the English theater of old."

Vallee holds that only 1 or 2 per cent of the 10,000 members

work at all in New York, Hollywood and elsewhere in the country.

"Producers have only contempt for Equity, knowing that in its zeal to find work for members, Equity rarely stands up to the producer or theater manager."

Vallee also raged against the practice of actors working for weeks in rehearsal at a maxi-

mum \$110 per week before a show hits Broadway.

"It's all the fault of Actors Equity which hasn't got the guts to make necessary changes and to fight for its members. I know I was framed at the hearing because I heard them ridiculing me after it was over. Something must be done, and I'm determined to see some changes made."

Horticulture Tips

Temporary or Nurse Grasses:

The so-called temporary or nurse grasses (redtop, ryegrass and timothy) are not needed in seeding lawns. In fact they should be avoided. Unfortunately the better lawn grass seed (blue-grasses and red fescues) germinates and grows more slowly than the temporary grasses, which start quicker and retain valuable space, water and food. This makes it difficult to establish the more desirable grass. People have a tendency to believe they are getting a bargain when these cheap lawn grasses germinate and grow in half the time it takes blue-grass. Cheap grass seed is the most expensive seed.

More emphasis should be placed on mulching and water-

ing lawns than on using temporary or nurse grasses. Newly seeded lawns should be mulched with something such as peat moss and then kept moist for a minimum of 14 days.

Father arrested in murder of 3

HELTONTVILLE, Ind. UPI — Three small children were found shot in the head and piled in a heap in a wooded area along a creek just north of here early today.

Police arrested the children's father, John Linn, 25, after he walked into the state police post at Seymour, Ind., about 25 miles east of where the bodies were found.

Lawrence County Sheriff Levi Hatfield, said a man walked into the state police office in Seymour and told troopers three children, ranging in age from 2 to 6 years, had been shot to death.

State police and deputies from two counties investigated the report and found the bodies. Hatfield said they were unable to determine where Linn's hometown was or the whereabouts of his wife.

Mont expects 110 players to report for DePauw Tiger's football season

If DePauw University football coach Tom Mont ever feels like singing this year he's apt to break out with "It's so nice to have some men around the house."

For the first time since the two platoon reappeared on the scene Mont's equipped with the human paraphernalia to capitalize on it.

"We've filled 110 lockers with football equipment," Mont reported, "in anticipation of over 50 varsity men arriving and nearly 60 freshmen. We have enough top flight men to fill out 22 positions—eleven each way. We expect to go completely to platoon football. It's the first time in my experience at DePauw we'll be completely filled out at every position."

And when Mont means he's "filled out" he doesn't mean with just bodies.

The varsity Tigers who'll come roaring back into Greencastle Friday (Aug. 25) include some 28 lettermen, most of them two-year veterans. There were only six seniors on the 1966 squad that won three of nine but smacked Wabash 917 in a coming-of-age finale.

Eight of Mont's 11-man defensive unit from last year are back, including safetyman Tom Boese who Mont calls one of the best he's ever had. This return rate is heartening since the unit led the ICC in team defense. The offensive situation looks pretty rosy too.

The Tigers have men of letters all over the turf. There's

the quarterback duo of Dan Breckenridge (hero of the Wabash fracas) and Eric Lortz. Both are seniors with two years of combat duty under their jerseys.

Three of their favorite targets are back too. This trio includes ends Dick Walker and Tom Miller and halfback John Butler. Among them they caught 66 of the 85 passes completed last year.

More evidence that the 1967 Tigers may be the fiercest they have been in four years is embodied in Mont's returning backs. Beyond Lortz and Butler, who averaged better than three yards per carry last season in rolling up 620 yards. Mont can rely on fullback Tony Whittlesey (3.5 yards per carry), John Sacramento (5.1 YPC), and Bill Holton (4.1 YPC). In fact, the only back not returning from last year is Gary Taylor who carried the ball 17 times.

Tim Feemster, the team's leading scorer one year ago, and Whittlesey this year may see more action on defense since Mont is fixed better than usual on offense.

While the defensive line seems well defined, the offensive line is one of the coach's pressing problems. First objective when action starts Aug. 26 will be to find the five top interior linemen to fill the tackle, guard and center slots, according to Mont. The end spots aren't much of a problem since Mont has Walker and Miller with converted quarterback Dave Moore, Bud Glaeser, and Dwight Woessner backing them up.

Ron McBride, voted outstanding high school athlete in Marion County (Indianapolis) as a senior, is among the Tigers' crop of sophomores Mont is counting on. McBride is a good running quarterback. He's especially clever with the bootleg. "He has lots of potential and we aim to use him in several ways," says Mont.

Other sophomores high on the list are offensive lineman Don Schulte, linebackers Trent Detamore and Frank Lowry, tackle Jerry Hoffman, offensive center Geoffrey McGovern, and back Scott Ralston.

The '67 team ought to be embellished with some other useful accessories this trip. Kicking for example, Feemster will be around for extra points and field goals. He has a string of 20 PAT's going and is only six short of beating an ICC career record.

Lortz and Sacramento will handle punts and quick kicks—the latter a weapon Mont predicts will be widely employed this fall. Feemster and Miller will do the honors on kickoffs for another year.

Mont incidentally joins a long list of coaches who find the new punting rule unattractive. "I don't think it's going to do what it's supposed to do—that is to make punt returns more exciting and open the game up," said Mont. He predicts there'll be more quick kicks and angling of the ball out of bounds. Run backs will be reduced in the first case and eliminated altogether in the latter.

In addition to more players to assault the season with, Mont is going to have a larger coaching staff. New additions will be graduate assistant John Kellogg, who'll work with the defensive backs, and student assistant Ray Arvay. Kellogg graduated from DePauw in 1962. He coached at Camp Lejeune during part of his stint in the Marines. Arvay, who played varsity football last year, will assist freshman coach Tod Eberle, a master's degree candidate at DePauw.

The rest of Mont's staff includes full time coaches Ted Katula, defensive co-ordinator, and Edward Meyer, offensive backfield coach. A third graduate assistant is Al Ferguson, another master's candidate.

After opening its season at Wheaton College in Illinois Sept. 16, the Tigers go to St. Joseph's Sept. 23 for their ICC opener. The home schedule of four games unfolds in Greencastle Sept. 30 with Valparaiso.

Price fixing and wage laws are not new. The Roman government enacted similar laws more than 1,000 years ago and death was the penalty for violators.

STATUS IN 1966
FINISH: First in Eastern Division, with 9-4-1 record.

SIZEUP FOR 1967

A RUGGED DEFENSE is the chief asset of the Buffalo Bills again as the Eastern division champs await their opening game against the Jets in Buffalo Sept. 10.

And, despite early exhibition losses, the Bills must be figured as contenders following important deals with Kansas City, San Diego and Oakland.

Back Keith Lincoln came to the Bills from San Diego for defensive end Tom Day. Split end Art Powell and quarterback Tom Flores were acquired from Oakland and kicker Mike Mercer from Kansas City.

Jack Kemp and Flores are the quarterbacks and the offense has fine receivers in Powell and Elbert Dubenion. Lincoln should aid the running game.

Front four on defense averages 271 with Jim Dunaway and Tom Sestak the standouts. A rookie, Gary Bugenhagen from Syracuse, figures on the left side of the defensive line.

Linebacking is solid with Mike Stratton, Harry Jacobs and Tom Tracey and George Saines heads the safety patrol group.

Eight rookies were on the roster last year and coach Joe Collier figures they're ready. Outstanding was Bobby Burnett, fourth in league in rushing.

Low Krause back with A's

BALTIMORE UPI—The great debate between Charles O. Finley and the Kansas City Athletics appeared today to have been reduced to a tempest in a teapot with the reinstatement of pitcher Lew Krause and the reluctance of the other players to issue a new challenge to their boss.

Finley seemed to have come out a winner as far as his control of the players was concerned although his reputation as an "ugly duckling owner" was further tarnished and his chances of moving the Kansas City franchise probably were lessened by the incident.

American League owners, whose approval must be obtained before Finley could move the Athletics have long frowned on Finley's ability to stir up troubles that give baseball a bad press.

Krause rejoined the Athletics Tuesday night and presumably is back in good standing after Finley called him and asked, "Are you ready to pitch again?"

"It's good to be back on the payroll again," said Krause. "I don't know whether I'll be fined or not but I imagine I'll lose five days of pay for not being with the club. It's up to Luke Appling (the new Kansas City manager) whether I go back in the starting rotation."

Fears that the Athletics might refuse to play a two-night double-header in Baltimore Tuesday night were put to rest when the players dutifully showed up at the ballpark. At the same time, the players stood firm in refusing to retract a formal statement criticizing Finley for his handling of the club and, specifically, for firing Alvin Dark early last Sunday morning.

The official national language of the Philippines is Filipino based on Tagalog, a Malayan dialect.

Indians lose

INDIANAPOLIS UPI — Bob Geribaldi threw a three-hitter at Indianapolis Tuesday night as Phoenix scored a 5-0 victory over the Tribe in a Pacific Coast League outing.

Dennis Kessane, the first of four Tribe hurlers, was charged with the loss.

Phoenix scored a single run in the third inning and broke loose with four in the fifth frame.

The dismal showing by the Indians came before the largest crowd of the season at Bush Stadium, 11,538.

The same two teams meet again tonight with Chuck Taylor slated to pitch for Indianapolis and Rich Robertson for Phoenix.

BENGAL LANCER NOW—For many years one of the National League's home run kings, Eddie Mathews now is a member of the Detroit Tigers, having been procured in a trade from Houston for a player or players to be named after the season is over. Mathews, who has 503 career homers, was hitting .238 with 10 homers this season for the Astros.

Player's meeting

Steve Paquin, Greencastle Junior High football coach, announced today that the first meeting for all seventh and eighth grade boys interested in playing football will be held at 5:30 p.m. Thursday at the Senior High School Building.

Paquin said that all boys reporting will be handed insurance slips and permission forms.

He is hoping that there will be a large turnout of prospective Junior High gridiron players.

Ross wins

LIGONIER, Pa. UPI — Bob Ross of Philadelphia fired a three-under par 68 for a 143 total Tuesday to win the Pennsylvania Open golf championship, one stroke ahead of pro Arnold Palmer.

"If you saw my round of golf, you'd think lightning was going to strike," said the 33-year-old Ross, who one-putted seven greens and chipped in a birdie at No. 5 to give him five birdies on the first nine holes in the second round. He carded 34 on both the front and back nine for a three-under par 68 over the 6,800-yard Laurel Valley Golf Club.

Foreign News Commentary

LONDON UPI — American bombing of North Vietnam has become a political hot potato for Prime Minister Harold Wilson.

The left wing of his Labor party has put pressure on him again to condemn it publicly, as he did in June last year.

Wilson has refused to yield. His statement to Parliament in June, 1966, dissociating Britain from the first bombing attacks on targets in the Hanoi and Haiphong area, was very badly received in Washington.

The last thing the prime minister wants at the moment is to provoke a breach with the White House over an issue in which he feels Britain's own vital interests are not involved.

But Wilson is said privately to have considerable qualms about the wisdom of Washington's Vietnam bombing policy.

Furthermore, it is an issue on which he is politically vulnerable. A considerable section of British public opinion opposed bombing North Vietnam or anything calculated to escalate the war still further.

Eight left wing Laborite members of Parliament called on Wilson this week to issue a new public condemnation of the White House's bombing policy. They also are threatening to demand the recall of parliament from its summer recess if the Far Eastern war situation deteriorates further.

Wilson rejected the demand. Normally, such a stand by eight known leftists would not worry the prime minister un-

duly, but he is well aware the eight are only the visible peak of a political iceberg. In a real showdown over Vietnam bombing up to 100 Laborite members of Parliament could be expected to vote against the government.

Wilson also is certain to come under fire on this issue at the annual conventions of the Trades Union Congress (TUC) at Brighton Sept. 4-8 and of the Labor party itself at Scarborough early in October.

The new left wing "revolt" on Vietnam comes at a most inopportune moment, when Wilson is already under heavy fire on account of his government's tough economic policies.

Rep. Myers on Social Security

WASHINGTON UPI — Rep. John T. Myers, R-Ind., says the Social Security system "should never be considered as a welfare plan which the retired person can depend on as the only source of income."

Myers said the most important point to remember "if we are to maintain a sound social security system which will continue to provide benefits in the years to come" is that the program is only an insurance program guaranteeing certain benefits based on what the beneficiary has paid into the fund.

He said a bill incorporating changes in the system, approved by the House last week, does not correct all the problems connected with the system but it goes "a long way toward providing some additional help for many of our senior citizens."

"It in some ways reflects the realities of the serious inflation problem facing our nation," Myers said.

Says Russ want Viet war ended

LONDON UPI — Theodore Sorensen, who served as a top adviser to the late president Kennedy, said Tuesday the Soviet Union is more disturbed over the Vietnam war than any other East-West issue. He said he believed the Russians wanted the war ended.

Sorensen spoke to newsmen at London Airport during a stopover on his flight to New York from a three-week visit to Moscow. He said the Vietnam war was "the one issue which most upsets the Soviet Union and keeps the United States and Soviet governments apart."

Sorensen said issues such as the Middle East were mentioned with much less intensity during his stay in the Soviet Union.

"I was asked a lot about Vietnam—whether the United States would change its policy, what justification they had for it, what effect it had at home, and what effect it's likely to have on the elections," he said. "There is no doubt that the Russians would like to see an end to the war," he added.

A Woman's View

By GAY PAULEY

NEW YORK UPI—Foreign study is education's newest kick. Rapidly, colleges are turning the whole world into their campus.

No one will deny that such education widens the horizons. But one pioneer in programs of study abroad warns of the pitfalls too.

"Ten students sent overseas does not a foreign program make," in the words of Dr. Jackson Bailey, director of the study program which Earlham College of Richmond, Ind., runs in Japan.

"Foreign study is the 'in' thing now," Bailey said. "It provides a gimmick. What worries me is that it will be just that, while colleges go right on with the same old teaching methods."

Earlham has pioneered a non-Western studies program, organization of which began in 1959, in which it sends not only its own students to Japan but also others from the Great Lakes Colleges Association (GLCA) of which it is a member.

Why Japan, we asked Dr. Bailey

Arab conference in trouble

By United Press International

Middle East reports today said plans for the first Arab summit conference since their June 5-10 defeat by Israel are in trouble. The reports said bickering Arab leaders cannot even agree on what to talk about.

The Middle East News Agency (MENA) are the Syrian government suggested postponement of a weekend foreign ministers conference that was to clear the way for the summit, scheduled to open Tuesday in Khartoum, the Sudan.

Arab leaders from seven nations were engaged in a round of talks which the authoritative Cairo newspaper *al-Ahram* said were aimed at "confirming" the summit.

But if the foreign ministers meeting is postponed the summit would almost certainly be pushed back.

The summit, arranged largely by King Hussein of Jordan, was to work out details of a "unified" Arab drive to regain territory in Egypt, Jordan and Syria lost to Israel in the war.

Another purpose was implementing whatever sanctions against the West were arranged by Arab economic ministers at the recent Baghdad conference.

The outcome of the Baghdad conference has been kept secret but it was known that proposals put before the delegates included suggestions for an Arab oil embargo against the West and plans for the "Arabization" of some American and British interests.

The more moderate Arab states, chiefly Saudi Arabia, were reported to have opposed an oil embargo on the grounds that the loss of income would hurt the Arabs when they badly need money for another battle with Israel.

Inmates missing

MICHIGAN CITY UPI—Two Indiana State Prison inmates working on trusty assignments outside the walls were discovered missing late Tuesday night during a routine check.

Prison officials said the prisoners, Marion Justice, 47, and Rich Alsop, 27, slept in a dormitory outside the walls and were working on a 4 to 12 p.m. shift in the officers dining room at the time of their escape.

Justice was sentenced from White County in September, 1958, on a forgery charge. He was serving a 2-14 year sentence. Alsop was serving terms of 2-14 years and 1-10 years concurrently on forgery charges and for attempting to commit a felony. He was sentenced from Tippecanoe County in June, 1966.

Alex King, administrative assistant to the warden, said the men were not considered dangerous, but they probably would be "on the prowl" for clothing and food.

PILGRIMS KILLED

JAKARTA UPI—Eight religious pilgrims were killed and 74 others injured when a truck they were riding in crashed into a tree in Tjolo, Central Java, the official Indonesian news agency Antara said today. The pilgrims were en route to the shrine of Sunan Murja, one of the country's early Moslem leaders.

Foreign aid bill needs overhauling: Myers

WASHINGTON, D.C.—Congressman John Myers (R-Ind.) said today he can not vote for the Administration's Foreign Aid Bill unless the program undergoes a major overhauling to reduce waste and abuse of the taxpayer's money.

As Congress prepared to vote on the Administration's \$3.4 billion bill, Myers said the American people should not be asked to make such a huge outlay for foreign nations at a time when the President is asking for an additional 10 per cent in taxes to meet our obligations at home and in Vietnam.

Urging that Congress put a tighter rein on foreign aid, Myers said, "Congress would do well to place the entire foreign aid program under close scrutiny and determine what the Administration needs, rather than what it asks for, which is usually far in excess of actual needs and encourages continued waste."

"Most important at this time is a ban on foreign aid to any nation giving military assistance to North Vietnam. We should also cut off aid to countries like Egypt which have broken diplomatic relations with the United States."

"We look forward to the eventual termination of all grants in aid and toward the time when the normal processes of trade, production and loans will carry the burden of development," Myers said.

"In the meantime, we should

encourage the nations receiving aid to help themselves. I believe we can achieve this with more technical assistance and reliance on private enterprise and by extending agricultural knowledge and techniques to countries in need and supporting projects that reach the masses.

"It is time we re-examine the goals of our Foreign Aid Program which has provided more than \$117 billion to over 100 foreign nations in the last twenty years. The American people have a right to expect sound administration of their funds and solid progress as a result."

Angry Negro mobs riot in Miss., in protest to police

By United Press International
Angry Negroes smashed the windows in the Jackson, Mich. city hall and a bottling plant Tuesday night in a protest over police action. Violence subsided in New Haven, Conn., after three straight nights of turmoil.

A federal judge in New York reduced H. Ray Brown's bail from \$25,000 to \$15,000 and the black power militant was released from jail. A New Orleans grand jury indicted him Tuesday on a charge of violating the National Firearms Act by taking a firearm across state lines while under a previous indictment. Brown also is free on \$10,000 bail on the previous charge, inciting a mob to riot in Maryland.

The Jackson incident erupted after 150 Negroes attended a city commission meeting to protest police activity in a case that touched off several nights of violence. The Negroes told the commission that police had overacted and used too much force too soon in breaking up a

fight between two Negroes at a dance Saturday night.

The police action was followed by several nights of firebombing and other disorders. Mayor Mary Bennett told the group their complaints would be investigated. But several Negroes threw rocks through the windows after they left the city hall meeting.

Brown appears in federal court in New York Friday on a request that he be extradited to Louisiana.

New Haven enjoyed relative calm Tuesday night and authorities said an 8 p. m. curfew

apparently was effective in preventing trouble.

"There's considerably less action tonight," a police spokesman said. "They're throwing bottles, but we're not too concerned about it."

Police reported that 20 arrests Tuesday swelled the total to 393.

At Detroit, a private guard, Waverly Solomon, 32, was charged with murder Tuesday in the shooting of a Negro during the Detroit riot last month. Solomon, also a Negro was guarding a grocery at the time.

BELLE UNION COMMUNITY NEWS

Mr. and Mrs. Freddie Lewis and children, of Clayton, spent Saturday here.

Mr. and Mrs. George Wilson, of Indianapolis, spent last week with Mr. and Mrs. Earl Nicholson and attended the fish fry. Ronda and Ginny Sue returned home with them for a few days visit.

Tuesday callers on Mr. and Mrs. Earl Nicholson were Mrs. Irene Deal, Mrs. Nancy Cupp and children, and Mr. and Mrs. Donald Nicholson and family, all of Indianapolis.

Cool snap brings more cold records

By United Press International
A phenomenon the U. S. Weather Bureau calls "the fifth major cold snap of the summer" brought record temperatures for an August date once again in the Great Lakes area.

Green Bay, Wis., reported a 38-degree reading Tuesday to tie the record low for the date while Madison, Wis., set a record with 44 degrees.

High winds clocked at more than 40 miles an hour in the Valentine, Neb., area caused scattered damage.

Rain dotted the weather map in various parts of the country late Tuesday, hitting Nebraska, Minnesota, Colorado, Arizona, east Texas and Oklahoma. Roanoke, Va., recorded 1 1/4 inches in a six-hour period ending early today.

Rainfalls in excess of two inches were reported Tuesday at Corpus Christi and Brownsville, Tex., and nearly two inches fell at Shreveport, La.

NEW YORK UPI—Bregman, Cummings & Co. says that the basic market trend could be nearing a "major crossroad of boom or bust, of extreme euphoria or bitter disappointment." The analyst says that until more evidence is in, the best investor strategy would be to remain in a sheltered, high reserve position and to consider aggressive commitments justifiable "only in rare, very selective situations."

Oppenheimer, Newborg & Neu takes note of the fact that most economic forecasts are optimistic. Still, the company says it believes that the wise course would be to stick to a conservative line and decrease speculative commitments.

Spear and Staff Inc. says a broad market correction is in progress at the moment which "has been masked" by small gains in the Dow Jones industrial average and "spectacular" performances by certain issues. The firm says possibly another four per cent will be shaved from most issues before the decline peters out. If this happens, the investment firm says there should be a "smart rebound" near or after labor day.

LOST SOMETHING EUREKA, Calif. UPI — Highway police were started Monday to find a big cargo trailer abandoned in the middle of the road. Six miles farther on, they found the truck-trailer in the ditch, with James E. Wallace at the wheel.

The 53-year-old driver gunned the engine as the police patrol car approached, but was unable to pull out of the ditch. He was picked up on suspicion of drunken driving.
